

ESKA® black by peyer cover

Eska black is a natural board, which consists of three layers. The core of black dyed-through board is enclosed by a dyed-through black paper.

Applications

- _ all packaging
- _ inserts

Processing

- _ printable in screen printing
- _ very good embossing qualities
- _ punching, milling, creasing, grooving

Characteristics

- _ The paper enclosing enables extra sharp edges.
 - _ The double lamination keeps the sheet flat.
-

EN-71-3, 36. Rec. BfR | Foodstuffs and Consumer Act (Food Safety)
DIN ISO 45001/9001/14001
Produced in Europe

Advice on storage

To ensure that the material remains flat, we recommend storing the material in its packaging until you are ready to process it and to pack any sheets that are not required properly after processing.

Available from stock

thickness	1.0 mm	1.5 mm	2.0 mm
