

NATURELLE

Characteristics

NATURELLE COULEUR is a cotton fabric. The focus is on bold colours. The thick yarn and the more open weaving underline the strong appearance of the material.

NATURELLE COTON is also a cotton fabric. The colour selection consists of delicate beige and sandy tones. Small inclusions and irregularities give it a charming, naturally appealing look.

NATURELLE MÉLANGE is a fabric that contains not only cotton and viscose, but also natural linen. This combination gives the fabric its characteristic texture. Small inclusions and imperfections are welcome.

Applications

- _ book cover, back strip, full and half binding
- _ cover material for slipcases, albums, ring binders, luxury cardboard boxes

Processing possibilities

- _ printable in screen printing
- _ blind embossing and hot foil stamping
- _ glue-proof laminated on paper
- _ good creasability

We will be happy to provide you with further processing-relevant material information.

Certificates/Environment

REACH, V-Label, cradle-to-cradle-conform
COULEUR and COTON are FSC®-certified (FSC 007262).
Produced in Europe according to DIN ISO 9001 and 50001.

Generally, all fabric types are solvent-free, free from chlorinated hydrocarbons, formaldehyde-free, skin-friendly and biodegradable.
The used dyes do not belong to the category of hazardous substances and are also biodegradable.
